ABOUT TRENTO

Trento is a city rooted in art and history, where the Italian and Mitteleuropean cultures meet. Unique amongst the alpine cities, the City of the Council (1545 - 1563) still keeps its precious monuments as tokens of its rich artistic and historic heritage. Built in the elegant renaissance style, they have been enhanced by recent refurbishing. Special mention goes to the Castello del Buonconsiglio, for several centuries residence of the Prince-Bishops of Trento. The Duomo, the Cathedral of Trento dedicated to San Virgilio, with its gorgeous piazza and fountain dedicated to Neptune, the frescoed houses and Council churches as well as the museums and exhibitions which make the city of Trento a true landmark of alpine arts, culture and traditions.
