Brains, are you ready for a one-week project full of CHALLENGES?
Do you want to get your skills and ideas tested and applied in a REAL industrial EXPERIENCE?
Then come to join the sixth edition of Industrial Problem Solving with Physics on July 19-24!
IPSP2021 will offer young researchers coming from different scientific backgrounds a unique chance for growing their expertise and a special opportunity for sharing their skills with companies.

Industrial Problem Solving with Physics (IPSP) is a one-week event organized by the Department of Physics, the Doctoral Program in Physics and the Research Support and Knowledge Transfer Division of the University of Trento, in collaboration with Confindustria Trento and Polo Meccatronica – Trentino Sviluppo.

IPSP aims at creating a bridge for the transfer of know-how and human resources between the University and the world of industry: 3 companies and up to 30 brains (master students, PhD students, post docs and research fellows) will be selected to work in teams, trying to find solutions to the proposed problems.

The brains participating in the event will have the opportunity to tackle practical challenges, exploiting the transversal skills achieved during their studies. The participating companies, on their side, can obtain reliable solutions to the problems and experience an alternative problem solving strategy. At the same time, they could scout young and talented people for professional collaborations.

Off-site candidates can apply for accommodation.

Kindly notice: In case of restrictions caused by Covid-19 health emergency, the blended mode or alternatively the online mode will be considered for the event.

Application Deadline: April 28, 2021

SCIENTIFIC COMMITTEE
Mattia Mancinelli, Dipartimento di Fisica, Università di Trento
Michele Orlandi, Dipartimento di Fisica, Università di Trento
Luca Tubiana, Dipartimento di Fisica, Università di Trento

ADVISORY BOARD
Franco Dalfovo, Dipartimento di Fisica, Università di Trento
Giovanni Andrea Prodi, Scuola di Dottorato in Fisica, Università di Trento
Vanessa Ravagni, Divisione Supporto Ricerca Scientifica e Trasferimento Tecnologico, Università di Trento
Alessandro Santini, Confindustria Trento
Paolo Gregori, Polo Meccatronica

CONTACTS
Organizing Committee: ipsp2021@unitn.it
Department of Physics: df.supportstaff@unitn.it
