R.E.D.S. Resilient Ecological Design Strategies
Bolzano Klimahouse 31 GENNAIO 2015
ore 14.30_Sala Elena Walch_Hotel Sheraton
Convegno promosso e organizzato dall’Università di Trento,
Dipartimento di Ingegneria Civile, Ambientale e Meccanica (DICAM)

All’inizio degli anni Novanta, nel corso del Vertice della Terra di Rio de Janeiro, ai pubblici mondiali furono mostrate in modo inequivocabile le conseguenze che avrebbero avuto sulla popolazione e sull’ambiente il crescente sfruttamento delle risorse, il velocissimo incremento delle emissioni di gas a effetto serra e l’inarrestabile inquinamento degli ecosistemi mondiali. Oggi sfidiamo che queste minacce hanno raggiunto una dimensione allarmante. Al costante aumento della popolazione mondiale e al crescente divario fra ricchi e poveri si aggiungono una fame insaziabile di risorse e un cambiamento climatico che avviene in tempi sempre più rapidi. Uno sviluppo attento towards an ecological approach

Il seminario internazionale si svolge a Bolzano nella giornata di sabato 31 gennaio 2015 e è organizzato in un’unica sessione animata da cinque interventi di studiosi, progettisti o gestori delle trasformazioni a livello internazionale (Keynote Speakers) che proporranno la loro esperienza e la loro visione.

Saranno presentati gli esiti del workshop BioDesign che affronta temi affini e che si svolgerà a Bolzano negli spazi della Fiera e avrà luogo durante “Klimahouse”.

Durante il seminario sarà poi possibile visitare la mostra “Building landscape urbanism” a cura di Elisa C. Cattaneo e Jeannette Sordi.

Keynote Speakers
Michael Jakob (EPFL)
Gerhard Hausladen (TUM)
Maria Giuseppina Grasso Cannizzo (UNITN/Cattedra Libera 2014/2015)
Areti Markopoulou (IAAC)
Charles Waldheim (HARWARD GSD)

Sponsorizzato da: Klimahouse Design Research Conference Bozen

Promosso e organizzato da: Università degli Studi di Trento
Dipartimento di Ingegneria Civile, Ambientale e Meccanica

R.E.D.S. 2
CALL FOR PAPERS AND PROJECTS

Programma
Sabato 31 Gennaio
11.30 Presentazione degli esiti del workshop BioDesign
12.30 Presentazione libro “Beyond Urbanism” di Jeannette Sordi
12.45 Presentazione libro “Weak City” di Elisa C. Cattaneo
14.30 Saluti di benvenuto
Reinhold Marsoner direttore Klimahouse, Paolo Collin Prorettore UNITN, Mosè Ricci e Pino Scaglione (curatori)
15.00 I sessione
15.00 Keynote Speaker: Michael Jakob
15.30 Presentazione Pecha Kucha
15.40 Keynote Speaker: Gerhard Hausladen
16.10 Presentazione Pecha Kucha
16.20 Keynote Speaker: Maria Giuseppina Grasso Cannizzo
16.50 Presentazione Pecha Kucha
17.00 Coffee Break
17.30 II sessione
17.30 Presentazione Pecha Kucha
17.40 Keynote Speaker: Areti Markopoulou
18.10 Presentazione Pecha Kucha
18.20 Keynote Speaker: Charles Waldheim
18.40 Pausa
19.00 Tavola rotonda conclusiva
Moderatore: Manuel Gausa
Intervenenti: Wolfgang Andexlinger, Pier Paolo Balbo di Vinadio, Maurizio Carta, Antonio De Rossi, Carlo Gasparini, Michelangelo Russo, Jorg Schröder, Manlio Vendittelli.

Curatori
Mosè Ricci e Pino Scaglione
Condizioni editoriali
Sostituzione fotografica
Silvia Faravelli, Chiara Filzi, Stefania Staniscia
Segreteria organizzativa
Giusy Rolfo, Giulia Garbarini, Gaia Sgaramella

DESEGINING A SUSTAINABLE FUTURE

Climaphouse
Klimahouse design research conference Bozen

01 15
At the beginning of the Nineties, with the Rio de Janeiro International Summit, the world was confronted with the unquestionable consequences that the increasing use of resources, the explosion of greenhouse effects and the growing pollution were going to have on the environment and on the human population. Today these threats have reached alarming levels. The constant increase of the worldwide population and the deepening of the gap between rich and poor are added to the insatiable hunger for resources and the effects of climate change. In order to promote a sustainable development, it is essential to reconcile social equity, ecological awareness and economic efficiency. However, it is essential to intervene as soon as possible and at the global level.

After the 2013 Rome Ecological Design Symposium, R.E.D.S. moves to the Alps, in the Trentino - Alto Adige Region where there is a constant research on limiting the environmental impact of human activities in the territory through a well-established and growing attention to the issues of sustainability, energy efficiency and recycling. The “Klimahouse” Fair in Bolzano becomes the active place where to discuss and experiment a new concept of sustainability. The international seminar R.E.D.S.2ALPS is opened to professionals and young researchers from both research and practice fields. The Seminar will address the issue of changing paradigms and tools in the design disciplines in order to define new proposals within research approaches, education and experimental practices of architecture.

The international seminar will be held in Bolzano on Saturday, January 31, 2015 and is organized in a single session led by five lecturers of scholars, designers, researchers at international level (Keynote Speaker), who will present their experience and vision. Following the symposium, the results of the “Klimahouse” workshop will be presented. The workshop is dealing with similar themes and will be held in Bolzano in the spaces of the trade show.

During the seminar it will be possible to visit the exhibition “Building landscape urbanism” curated by Elisa C. Cattaneo and Jeannette Sordi.

The results of the workshop “BioDesign” will be presented in the spaces of the “Klimahouse” Fair in Bolzano.

Keynote Speakers

Michael Jakob (EPFL)
Gerhard Hausladen (TUM)
Maria Giuseppina Grasso Cannizzo (UNITN/Cattedra Libera 2014/2015)
Areti Markopoulou (IAAC)
Charles Waldheim (HARVARD GSD)
