22nd Pezcoller Foundation - AACR
International Award for Extraordinary Achievement in Cancer research

Lectio Magistralis
Dr. Alberto Mantovani

Istituto Clinico Humanitas, Milano
«Winner of 2019 Pezcoller - AACR Award»
May 10, 2019 at 12.30
Polo Ferrari 2, Room B107
via Sommarive, 9 - Povo, Trento

Dr. Alberto Mantovani is being honored for his seminal research linking inflammation and tumor-associated macrophages with cancer onset, which has been essential to the understanding of cancer progression. His research represents a collection of quintessential discoveries that have greatly contributed to the ongoing interest and excitement surrounding the importance of the immune system in tumorigenesis.

Award Recipient Background Information
The Pezcoller Foundation-AACR International Award for Extraordinary Achievement in Cancer Research was established in 1997 to recognize a scientist who has made a major scientific discovery in basic cancer research, or who has made significant contributions to translational cancer research; who continues to be active in cancer research, and has a record of recent and noteworthy publications; and whose ongoing work holds promise for continued substantive contributions to progress in the field of cancer.
