WORKSHOP

Social Network Analysis for Two-Mode Networks

Wednesday 22 June 14-17

Thursday 23 June 10-13 & 15-18

Friday 24 June 10-13

Sala Professori I Piano

Instructor:

- Professor Martin Everett, University of Manchester

[REGISTRATION](#)

This workshop offers a comprehensive overview of ways to deal with two-mode social network data. Topics include:

Centrality

Equivalence

Core-periphery

Bi-cliques

Permutation techniques

Community detection

Participants are expected to install Ucinet (<https://sites.google.com/site/ucinetsoftware/download>) on their own laptops before the start of the workshop. Mac users will need a Windows emulator such as Parallels or Oracle VM VirtualBox
