## Overview on the technology transfer activities related to the iCub Humanoid Robot research

March 9th 2023, h. 15:30

Seminar room, Polo Ferrari 2, Via Sommarive 9, Trento

**Speaker: Silvio Traversaro, Istituto Italiano di Tecnologia (Genova)**

This talk covers the technology transfer activities related of the research of iCub-related groups (such iCub Tech Facility and Artificial and Mechanical Intelligence groups) at the Italian Institute of Technology. In particular, the talk will discuss applications of the iCub-related technologies and know-how to specific fields such as industrial automation, biomechanical analysis and more in general to research and development in corporate environments.
