

# Europass Curriculum Vitae

## Personal information

First name(s) / Surname(s)

**Filippo Visintainer**

## Work experience

Dates

Occupation or position held

2005-2024

Technology specialist and Project Leader, V2X based ADAS features  
From 2019 Technical Fellow of Cooperative Driver Assistance Systems  
Stellantis-CRF, Trento Branch, SWX

Main activities and responsibilities

As project responsible for Stellantis R&D projects on vehicle-vehicle, vehicle-infrastructure communication (V2X) I led the design, development and testing of V2X-based Advanced Driving Assistance Systems.  
I contributed to the set-up of a V2X reference test site for FCA then Stellantis in Trento on the A22. As technical reference for V2X, I supported the design and specifications of new automotive telematic units for next generation vehicles.  
At international level, I have been technical coordinator, test site leader, work package/activity leader and Steering Committee member in EU R&D projects on Cooperative, Connected and Automated Driving (FP6, FP8, H2020, Horizon Europe, CEF). Among the >15 projects: the first V2X pilots SAFESPOT (ended 2010) and DRIVE C2X (2014) and the recent projects on advanced V2X functions for CCAM: Concorda (2021), C-ROADS Italy 1&2 (2023), 5G-CARMEN (2022).  
In these projects, in collaboration with Stellantis-CRF team and partners, I thoroughly tested V2X (IEEE802.11p), C-V2X (LTE PC5 and Uu) and 5G, applied to safety, driving assistance and automated driving applications. I participated to field operational tests on car prototypes in Italy, Austria, Germany, The Netherlands and Sweden.  
As member of the 5G Automotive Association (5GAA) I have been following WG3 on Evaluation, Testbeds and Pilots and previously WG4 on Standards and Spectrum.  
Within standardization of Intelligent Transportation Systems (ITS), I am head of SC3 (ISO/TC 204 and CT525 UNINFO) and GL3 V2V/V2I (ISO/TC 204) in the Italian CUNA Commission "Sistemi e Componenti Elettronici, Elettronici e Telematici installati a bordo veicolo.

Dates

Occupation or position held

Optical Sensor specialist, Microsystems Unit, CRF Trento

Main activities and responsibilities

I was responsible for the optical design in R&D projects on opto-electronic systems for automotive application. I contributed to the development of a sensing system based on CMOS technology for the detection of environmental parameters.

Dates

Occupation or position held

Postgraduate intern

Main activities and responsibilities

Design and development of Opto-electronic sensors and microsystems for automotive.

Name and address of employer

CRF S.C.p.A., Stellantis Group (formerly FCA and FIAT group)

Type of business or sector

Automotive industry

## Education and training

Dates

1995-2001

Title of qualification awarded	M.Sc. Degree in Physics (Old System – Vecchio Ordinamento)
Principal subjects/occupational skills covered	Physics of Matters, Photonics and Optoelectronics, Optical Spectroscopy. Thesis "Vetroceramiche SiO <sub>2</sub> -TiO <sub>2</sub> :Er <sup>3+</sup> per ottica integrata. Produzione per via sol-gel e caratterizzazione ottica, spettroscopica e strutturale".
Name and type of organisation providing education and training	Università degli Studi di Trento – Facoltà di Scienze Matematiche, Fisiche e Naturali
